- Innovative design and development
- Superior installation strategy
- 100+ Technicians
- 15 management personnel
- Training testing & documentation
- Ongoing maintenance
- Quick response to field service
- National mobile deployment

Streamline Project Management and Deployment

Company Overview

The Global Resource Group (GRG) national network sets the standard for the deployment of fleet vehicle electronics and interface systems. Headquartered in Stockbridge, GA, GRG's senior logistics management brings over 50 years of fleet installation expertise to coordinate a national network of experienced MECP (Mobile Electronics Certification Program) certified installers. GRG is the nation's leading provider of installation services for mobile fleet electronics and fixed wireless networks.

Telecommunications companies, utilities, government organizations, municipalities, transport carriers, and automotive manufacturers have all realized the advantages and value that GRG can provide by streamlining project management and deployment logistics. Our fixed wireless division is quickly becoming known throughout the industry as the most efficient and economical means in which to deploy large scale fixed wireless and civil installation projects throughout North America.

Our workforce is comprised of highly trained and experienced technicians and management staff. GRG offers the most versatile and efficient professional installation services in the industry. When utilizing GRG's services, you can expect GRG Technicians to arrive on time, in uniform and with the proper tools and equipment needed to do the job right the first time.

Why Choose GRG?

From design to delivery to ongoing service and maintenance, you can always depend on the Global Resource Group team for the following reasons:

- **We are Professionals** – MECP, Quality Standards, Certified
- **We have 24-Hour Operations** – Day or Night
- **We Work as a Team** – Efficient, Consistent, Clean and Orderly
- **We Operate Everywhere** – Nationwide; throughout Fleet Customer's Market
- **We are Mobile** – We come to your customer; short notice flexibility
- **We are Accountable** – Documentation, Documentation, Documentation
