

Utility Fleets

Geotab's GPS fleet platform has been designed with the fleet user in mind and enables Checkmate reports to drive payback for fleet users. Below are the most commonly requested Geotab features for utility fleets:

Fuel Tax Reporting

Geotab reports engine hours with PTO activity on and off road for fuel tax reporting. Geotab has the best and most reliable GPS and tachograph system in the world, making calculation and management of fuel tax rebates easier and more accurate.

Trips & Activities Report

Receive accurate driving logs of stops and starts, along with address and other useful trip information.

Speed Profile and Accident Reconstruction

Geotab provides second-by-second GPS detail of the final 90 minutes before an accident occurs. This could prove critical when reconstructing accidents.

Monitoring PTOs & Auxiliaries

Geotab can monitor PTOs, pumps, switches as they relate to the material being handled. Device usage is reported and can be easily displayed on a map.

Risk Management

Geotab solutions provide fleets with the proof of activity and the tools required to modify driver behavior and reduce the risk of exposure liability.

Vehicle Details

Geotab's new maintenance, lease, and licensing event management software tool shows all vehicle details.

Geotab Provides The Most Accurate GPS Trip Recording In The World

- Wireless data upload via 900 MHz RF solution and no monthly running costs
- Operational WiFi solution integrates with existing wireless routers and supports WPA and WEP encryption
- View your assets in real-time with the GO Live solution. GSM and CDMA options are available
- GPS navigation support for Windows and Windows Mobile devices
- Up to 30,000 records on-board recording using the world's only GPS discriminating processor that accurately depicts distance while optimizing memory
- Second-by-second accident data
- Flexible base unit allows future plug-in options including real time cellular or satellite AVL solutions
- Monitors auxiliary devices (PTOs)
- Vehicle immobilization wiring is available as an add-on accessory
- Tamper resistant/water resistant housing

Geotab is the first expandable platform in the world that allows fleet managers to create the right hardware and software configuration to meet their operating objectives and budget. To review your fleet-specific requirements for productivity and ROI, please invite Geotab for a 2 hour fleet and business strategy meeting where addressing your objectives is our priority.
